

# ALBIN O-22

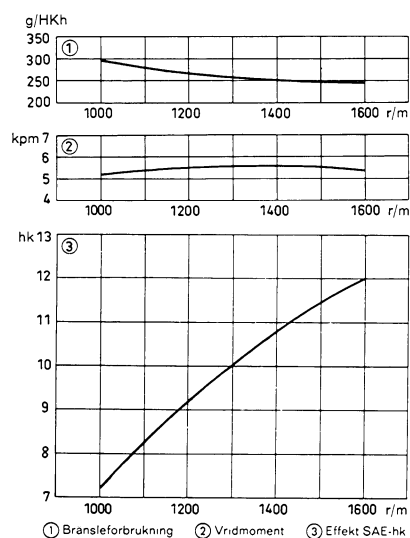

**12 SAE-hk 1600 r/m**

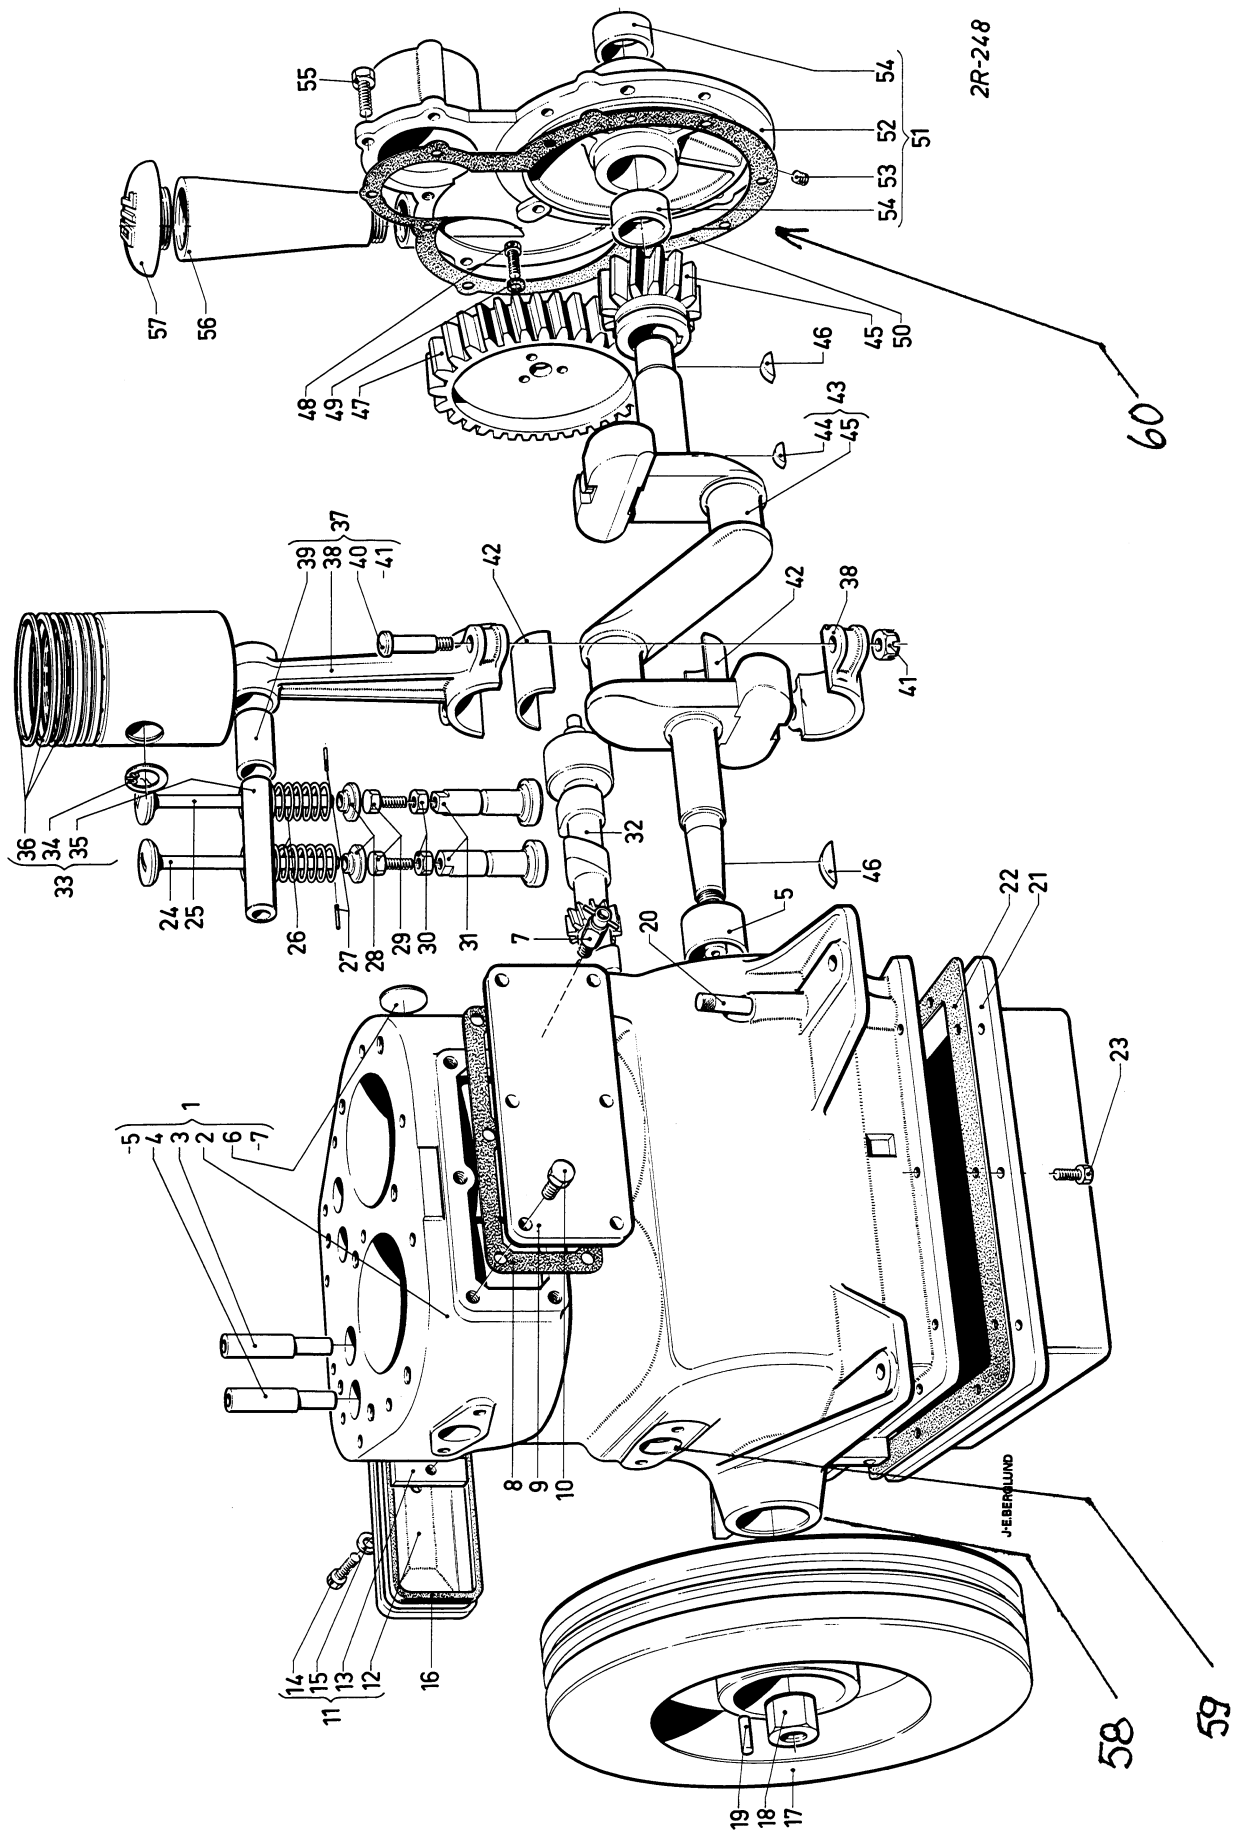

ALBIN O-22 är en slitstark och driftsäker båtmotor, lätt att manövrera, lätt att sköta. Den är tvåcylindrig och drivs med bensen eller fotogen. O-22 är ekonomisk i drift, med normalfart drar den bara 2—2,5 l/timme. Motorn har ett nytt, kompakt fjäderbandsbackslag och enspaksmanövrering. Det innebär att man med en enda spak, som kan placeras vid förarplatsen, manövrerar både gaspådrag och backslag — en väsentlig förenkling av båtens manövrering.

ALBIN O-22 har ett enda smörjställe för både motor och backslag. Kompletterar man motorn med den nya propelleranordningen från ALBIN, har den dagliga översynen nedbringats till ett minimum.

ALBIN O-22 passar för deplacementbåtar mellan 5 och 8 meter. Som hjälpmotor i segelbåtar levereras motorn vanligen i s.k. Kombi-utförande med ställbar propeller. ALBIN O-22 Kombi har istället för backslag en patenterad manövermekanism, som sköts med ett enspaksreglage med en enda ledning. Samtidigt som man reglerar stigningen på propellerbladen påverkas gaspådraget följsamt. Den 2-bladiga propellern kan ställas i helt flöjlat läge för minsta motstånd vid segling.

**ALBIN FÖR SÄKERHET OCH TRIVSEL**
